The purpose of this option is to allow multiple examination formats with each format using the same questions in a different sequence. The different examination formats are converted by the scoring program to the master. (Examination Answer Key) format and are scored and analyzed as one examination.

To provide the scoring program with data to accomplish this task, locate the corresponding question on the master version of the test (Examination Answer Key); enter that number in the box on this form containing the question number as it appears on this version of the test.

For example, if QUESTION 8 of this format is the same as QUESTION 19 of the master format, enter "019" in location 8 on this form.

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
